

## SOLD COAL WHILE AGENT FOR THE PENNSYLVANIA

Spangler Divided His  
Time with Consent of  
Robert Cassatt.

PHILADELPHIA, June 8.—W. G. Spangler, local agent of the Pennsylvania Railroad at Milton, Pa., was the first witness before the Interstate Commerce Commission today. Mr. Spangler testified that, in addition to his duties as railroad agent, he also acted as sales agent for the Keystone Coal and Coke Company.

He said that the greater portion of the coal tonnage for Milton had been shipped over the lines of the Reading Company until he became sales agent for the coal company, when the Pennsylvania's tonnage was increased about 3,000 tons monthly.

He was made sales agent after a conference with Robert K. Cassatt, and his appointment was made with the knowledge and consent of H. B. Lincoln, division superintendent of the Pennsylvania Railroad at Milton.

He received a commission of 2 1/2 cents a ton from the Keystone Coal and Coke Company.

Milton is a manufacturing town and most of the bituminous coal used by the factories came from the Beech Creek district, on the lines of the New York Central Railroad.

The Keystone Coal and Coke Company's operations are located in the Greensburg district on the Pennsylvania Railroad line.

## SAYS CAPT. WYNNE IS MENTALLY SOUND

Surgeon Bogart Testifies at  
Court-Martial of the  
Marine Officer.

The trial by general court-martial of Capt. Robert F. Wynne, United States Marine Corps, of the battleship Alabama, for insubordination, was resumed today on board the Pennsylvania, at the Brooklyn Navy Yard. E. S. Bogart, surgeon on the West Virginia, was called as a witness for the prosecution.

He testified that he served on the West Virginia with Capt. Wynne from April to October, 1905, and with him at the same time and had numerous opportunities to observe his conduct. He saw no evidence of insanity and said that, in his professional opinion, the accused was of sound mind, but his conduct was of a very dangerous nature during periods of excitement when he was as likely to do the wrong thing as the right thing.

Furthermore, the witness testified that Capt. Wynne became greatly excited at a professional man, the witness declared that Capt. Wynne is fully responsible for his acts.

Affected by Sun, Perhaps.

Lieut. Elsie Theall, retired, counsel for Capt. Wynne, cross-examined the witness, whose attitude was hostile to the accused. Surgeon Bogart admitted that Capt. Wynne is naturally irritable, and that a man of his temperament might be seriously affected by exposure to the sun, even to the point of insanity or lesser mental derangement. There was a short intermission at the conclusion of the testimony of this witness to allow of the introduction of a record from the Navy Department.

Dr. S. M. Parsons, who was a witness yesterday, was recalled and questioned by Lieut. Theall. He said that he once had Capt. Wynne under his professional care. The officer, according to him, was not really responsible for his actions of conduct during that period. He suffered from a severe headache. Dr. Parsons did not remember seeing any traces of mental derangement on the part of the accused on any other occasion than this.

Sunstroke on Record.

Dr. Bogart was recalled. Lieut. Theall read from the report he had secured during the intermission to show that the witness traced Capt. Wynne to Peking, where, the accused suffered a sunstroke. He complained of a severe headache and vomited blood. Lieut. Theall warned from the witness an admission that a man who has suffered two sunstrokes is more susceptible to exposure to the sun's rays than one who has never been sunstruck.

The court adjourned until 10 o'clock to-morrow morning.

## OFFERS REWARD FOR \$10,000 GEM

Trinket Was Lost a Year Ago  
at Majestic Hotel by Mrs.  
S. M. Williams.

A reward of \$10,000 offered through Tiffany & Co. for the return of a \$10,000 sapphire and diamond heart lost in the Majestic Hotel has made a stir among the patrons and attaches. The owner of the jewel is Mrs. S. M. Williams, wife of the former vice-president of the Central Railroad of New Jersey. Mr. Williams and his family have occupied a suite in the Majestic for about two years.

The heart-shaped sapphire was a rare sapphire and twenty-six diamonds—was lost a year ago. The ornament was treasured because it was a birthday gift and ever since its loss Mrs. Williams has grieved so much that she has been sick in body and mind. For months detectives have been at work, but they have not found the slightest clue.

Mrs. Williams said:

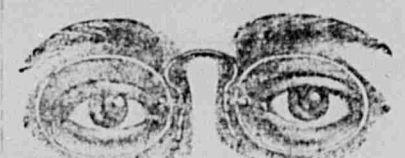

"I cannot get rid of the conviction

## A Material Difference.

MUSHROOMS are delightfully palatable and healthful, yet some species of Toadstools so closely resemble the toothsome Mushroom as to make it dangerous to experiment with uncertainties. And so it is with Castoria and its imitations. Keep the Castoria that bears the signature of Chas. H. Fletcher ever in your mind's eye as the Mushroom. And be as particular to remember the counterfeits, substitutes and "just as good" kind as the Toadstools. There may be a resemblance in the package, but the results obtained are so widely different as to make the signature of Chas. H. Fletcher the important feature when buying Castoria.

Why should not our preparation be superior to all other children's remedies? Have not eminent physicians from the Atlantic to the Pacific testified to its perfection? Castoria that bears the signature of Chas. H. Fletcher is the name of chemical art as applied to a child's medicine.

Genuine Castoria always bears the signature of *Chas. H. Fletcher*.

that some one in the hotel picked it up. Possibly it was some patron, possibly a servant. It is probable that the person who found it used the gem and disposed of it. That might have been done with the diamonds without detection, but with the sapphire it is different. There are very few stones like it in the world, either in size or shape. It is as large as a hazelnut and of the shape of a pea.

"Through Tiffany & Co. we have been kept informed about unusual sapphires coming into the market, and nothing answering to the description of my wife's gem has been offered for sale in the regular way. The thief could have sold it to a fence, of course, and from there it might have gone to some individual who patronizes such places. But it is my belief that it was not so disposed of. At this time I will say no more than this: If the heart is brought forth it will be by some person who has had it ever since the night my wife dropped it either in the lobby or the dining-room. If it is returned no questions will be asked, and the money will be paid cheerfully."

At Tiffany's it was said that no claimant for the reward had appeared.
